Dear Kathy,

ML& P heartily agrees with the request of CEA to extend the Grant 122-DC-2004-I10 timeline to December 2007. Chugach, with the support and concurrence of the MOU partners, intends to use the December 31, 2007 extension of the grant to complete the Wind System Integration Study. When the FAA provides Chugach with a non-objection letter this summer, Chugach will conduct the study before the end of 2007.

Likewise, ML&P is not proceeding to use its grant monies for further studies until a letter from the FAA is received withdrawing its objections to wind turbines on Fire Island.

Sincerely,

Mio Johnson
Manager of Engineering
